PROFESSIONAL SUMMARY

Dedicated and detail-oriented IT professional with 1 year of experience in system administration, network maintenance, and technical support. Proven ability to maintain high uptime for LAN/WAN infrastructure and troubleshoot hardware/software issues in fast-paced environments. Expertise includes Cisco configuration, database management (MySQL/Oracle), and providing frontline support for call center operations. Seeking to leverage technical skills and preventive maintenance strategies to ensure seamless IT operations at StarTimes.

CORE COMPETENCIES

- **Network Administration:** LAN/WAN configuration, VPN setup, Cisco Router/Switch configuration, Internet connectivity troubleshooting.
- **System & Hardware Support:** Desktop/Laptop repair, printer setup, preventive maintenance, OS installation (Windows/Linux).
- **Database Management:** MySQL and Oracle support, SQL query execution, data backup, and recovery.
- **User Support:** Call center IT support, staff training, SMS dispatch systems, ticketing systems.
- **Security & Web:** System security monitoring, access control, website updates, disaster recovery planning.

PROFESSIONAL EXPERIENCE

IT Support Technician and Attaché at Executive Office of The President | 2024. My tasks included:

- **Infrastructure & Network:** Monitor and maintain company LAN/WAN and VPN links, ensuring 99% uptime. Configure and troubleshoot Cisco network equipment to minimize downtime.

- **Hardware Maintenance:** Install, configure, and repair desktops, laptops, and peripherals across multiple office locations. Perform regular preventive maintenance to reduce hardware failure rates by [X]%.
- **Database Support:** Execute SQL queries for reporting and system optimization. Manage daily data backups and assist in disaster recovery planning.
- **User & Customer Support:** Provide frontline IT support to call center agents and customer service teams, resolving tickets related to software and connectivity issues.
- **Systems Management:** Support internal systems and digital platforms, ensuring all workstations are fully operational. Document all technical issues and resolutions for the knowledge base.

IT Assistant / Intern | [Previous Company Name]
[Month, Year] – [Month, Year] | *[Location]*

- Assisted in the installation and configuration of Windows and Linux operating systems.
- Troubleshot network connectivity issues and assisted in the maintenance of server rooms.
